

**NOW**, more than ever before, it is imperative that YOU make the right choice when it comes to cigarette waste containment.

## **DID YOU KNOW?**

- ❖ Appropriately positioned cigarette waste receptacles reduce litter and promote smoker compliance?
- ❖ As of January 2, 2008 over 2,500 US municipalities have local laws in effect governing where smoking is permitted?
- ❖ Business owners bear the responsibility for removing cigarette waste from entryways and parking lots?
- ❖ Carelessly discarded cigarettes make their way into streams, rivers, and waterways and can contribute to pollution?
- ❖ Cigarette butts are not biodegradable and can be detrimental to plants and wildlife?
- ❖ Cigarette litter increases with the enactment of indoor smoking bans and restrictions?
- ❖ Cigarettes and smoking materials are the number one source of litter worldwide?
- ❖ Many municipalities now restrict or prohibit smoking on beaches, in parks, at outdoor stadiums and at bus stops?
- ❖ Negligent use of smoking materials is a major cause of fire both indoors and out?
- ❖ Twelve of the United States, Puerto Rico and Washington, DC have enacted laws requiring workplaces, restaurants and bars to be smoke free?
